

Public Lecture

The University of Johannesburg, Faculty of Health Sciences with the Johannesburg Institute for Advanced Study (JIAS), invite you to a public lecture presented by Prof Balázs Gulyás from Nanyang Technological University.

12 SEPTEMBER 2016

The Brain-Mind Problem: Grand Challenges in Exploring the Human Brain

TIME 11:30 for 12:00
VENUE STH Protea Auditorium,
Auckland Park Bunting Road Campus.
(See attached map)

Refreshments will be served. Kindly indicate your dietary requirements.

RSVP Ms Nomkhosi Banda,
nomkhosib@uj.ac.za
by no later than
8 September 2016.

ABOUT THE SPEAKER

Balázs Gulyás is the Professor of Translational Neuroscience and the Scientific Director of the Neuroscience and Mental Health Theme at the Lee Kong Chian School of Medicine, Nanyang Technological University, Singapore. Prior to this appointment, Prof Gulyás spent most of his scientific career at the Karolinska Institute, Stockholm, Sweden, where he is still a professor at the Section for Psychiatry, Department of Clinical Neuroscience. Balázs Gulyás has made contributions to the field of functional brain mapping with positron emission tomography (PET), with special regard to the localisation of cortical areas in the human brain related to visual perceptual functions, visual memory and imagery, olfactory and pheromone-sense functions. During the past years his research focused on molecular neuroimaging with PET, with special regard to neurological and psychiatric diseases and their "humanised" small animal disease models. Balázs Gulyás has published numerous books, written over 35 book chapters and contributed to over 200 research papers in peer reviewed scientific journals. He is a member of Academia Europaea (The Academy of Europe), the Hungarian Academy of Sciences and the Royal Belgian Academy of Medical Sciences.

This event will be photographed and videoed for marketing and media purposes
