

Invitation: Anti-Nuclear Activism in Africa: A Historical Perspective

The Department of Politics and International Relations at the University of Johannesburg, in collaboration with the Global Peace Research Network, the Open University, the University of Sheffield, and the Johannesburg Institute for Advanced Study, cordially invites you to a 2-day workshop on the above topic. The workshop is generously funded by the UK Arts and Humanities Research Council and forms part of a global effort to challenge the limitations of peace activism scholarship by engaging with and stimulating research on peace activism beyond the North Atlantic, and crossing research boundaries by welcoming academic and non-academic stakeholders, activists, and policymakers as presenters. To learn more about the project, see <https://fass.open.ac.uk/research/projects/global-peace-histories>.
